

ROOK METERING EQUIPMENT

# Ram Flow 8"

*Constant Flow, Two Part, Dispensing System*

**A simple, yet highly capable, dispensing machine.**

For dispensing two part, high viscosity materials.  
Accurate to within 1%. Eliminates weighting/mixing errors.

Output adjustable to more than **1 gallon per minute!**

Convenient solvent flush system.

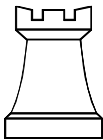

Delivers a constant flow of accurately metered material through a static mix head.

Easy slide ratio adjustment. Ratios adjustable from 3.5:100 to 15:100.

Pumps directly from a 55-gallon drum.

Spray Gun available for Spray mold making.

**Full performance, maximum simplicity, minimum price.**
